Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the (publisher, society); and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA

Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US$ 0.20 per page per copy, plus a basic fee of US$ 2.00 per article. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0028-1298, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents of volume 344

No. 1 published on July 30, 1991

F. Feth, W. Rascher, M. C. Michel: G-Protein coupling and signalling of Y_1-like neuropeptide Y receptors in SK-N-MC cells **1**

A. J. Fox, I. K. M. Morton: Mu and kappa opioid receptor modulation of 5-HT_3 and NK-3 receptor-evoked release of acetylcholine from the guinea-pig ileum myenteric plexus **8**

H. Nissbrandt, G. Engberg, E. Pileblad: The effects of GBR 12909, a dopamine re-uptake inhibitor, on monoaminergic neurotransmission in rat striatum, limbic forebrain, cortical hemispheres and substantia nigra **16**

R. M. Eglen, G. C. Harris, M. Taylor, J. R. Pfister, R. L. Whiting: Characterization of muscarinic receptors mediating release of epithelial derived relaxant factor (EpDRF) in guinea-pig isolated trachea **29**

A. Albino-Teixeira, I. Azevedo, F. Martel, W. Osswald: Superoxide dismutase partially prevents sympathetic denervation by 6-hydroxydopamine **36**

E. Schömig, U. Trendelenburg, I. Azevedo, D. Moura: The steady-state concentration gradient for ^{3}H-noradrenaline generated by uptake$_1$ in the extracellular space of the rat vas deferens incubated with this amine **41**

T. K. Keeton, A. M. Biediger: Propranolol and atenolol inhibit norepinephrine spillover rate into plasma in conscious spontaneously hypertensive rats **47**

H. Lemoine, A. J. Kaumann: Regional differences of β_1- and β_2-adrenoceptor-mediated functions in feline heart. A β_2-adrenoceptor-mediated positive inotropic effect possibly unrelated to cyclic AMP **56**

M. Endoh, H. Kushida, I. Norota, M. Takanashi: Pharmacological characteristics of adenosine-induced inhibition of dog ventricular contractility: dependence on the pre-existing level of β-adrenoceptor activation **70**

S. Birnstiel, H. L. Haas: Acute effects of antidepressant drugs on long-term potentiation (LTP) in rat hippocampal slices **79**

F. Zambotti, N. Zonta, R. Tammiso, F. Conci, B. Hafner, L. Zecca, P. Ferrario, P. Mantegazza: Effects of diazepam on nociception in rats **84**

H. von der Leyen, U. Mende, W. Meyer, J. Neumann, M. Nose, W. Schmitz, H. Scholz, J. Starbatty, B. Stein, H. Wenzlaff, V. Döring, P. Kalmár, A. Haverich: Mechanism underlying the reduced positive inotropic effects of the phosphodiesterase III inhibitors pimobendan, adibendan and saterinone in failing as compared to nonfailing human cardiac muscle preparations **90**

D. Wermelskirchen, B. Wilffert, U. Nebel, A. Wirth, T. Peters: Veratridine-induced intoxication in the isolated left atrium of the rat: Effects of some anti-ischemic compounds **101**

P. N. M. van Heiningen, H. D. Batink, P. A. van Zwieten: Angiotensin II-induced increase in slowly exchanging $^{45}Ca^{2+}$ in relation to contractile responses of rat and guinea-pig aorta **107**

M. Pfaffendorf, M. Moormann, F. Sponholz: Comparison of various spasmolytic drugs on guinea-pig isolated common bile duct **114**

R. Palluk, A. T. Veress, H. Sonnenberg: Renal response to blood volume expansion in Brattleboro rats after acute treatment with vasopressin **119**

Short communications

R. Busse, D. Lamontagne: Endothelium-derived bradykinin is responsible for the increase in calcium produced by angiotensin-converting enzyme inhibitors in human endothelial cells **126**

S. Böhm, S. Huck, H. Drobny, E. A. Singer: Electrically evoked noradrenaline release from cultured chick sympathetic neurons: Modulation via presynaptic α_2-adrenoceptors and lack of autoinhibition **130**

H. Ito, T. Nakajima, R. Takikawa, E. Hamada, M. Iguchi, T. Sugimoto, Y. Kurachi: Coenzyme Q_{10} attenuates cyanide-activation of the ATP-sensitive K_+ channel current in single cardiac myocytes of the guinea-pig **133**

No. 2 published on August 27, 1991

I. Sahin-Erdemli, P. Schoeffter, D. Hoyer: Competitive antagonism by recognised 5-HT_2 receptor antagonists at 5-HT_{1C} receptors in pig choroid plexus **137**

H. Schwörer, K. Racké, H. Kilbinger: Cisplatin increases the release of 5-hydroxytryptamine (5-HT) from the isolated vascularly perfused small intestine of the guinea-pig: Involvement of 5-HT_3 receptors **143**

A. J. Kaumann, L. Sanders, A. M. Brown, K. J. Murray, M. J. Brown: A 5-HT_4-like receptor in human right atrium **150**

P. Blier: Terminal serotonin autoreceptor function in the rat hippocampus is not modified by pertussis and cholera toxins **160**

K. Fink, M. Göthert: Ethanol inhibits the N-methyl-D-aspartate (NMDA)- induced attenuation of the NMDA-evoked noradrenaline release in the rat brain cortex: interaction with NMDA-induced desensitization **167**

R. Bültmann, I. von Kügelgen, K. Starke: Adrenergic and purinergic cotransmission in nicotine-evoked vasoconstriction in rabbit ileocolic arteries **174**

H. Prast, M. Heistracher, A. Philippu: In vivo modulation of the histamine release in the hypothalamus by adrenoreceptor agonists and antagonists **183**

C. Allgaier, R. Greber, G. Hertting: Studies on the interaction between presynaptic α_2-adrenoceptors and adenosine A_1 receptors located on noradrenergic nerve terminals **187**

A. Zhang, B. T. Altura, B. M. Altura: Unusual effects of SCN and lyotropic anions on contractility of vascular smooth muscle from female rats **193**

T. P. Kenakin, C. Boselli: Biphasic dose-response curves to arecoline in rat atria-mediation by a single promiscuous receptor or two receptor subtypes? **201**

H. R. Schwietert, D. Wilhelm, B. Wilffert, P. A. van Zwieten: Differences between full and partial α-adrenoceptor agonists in eliciting phasic and tonic types of responses in the longitudinal smooth muscle of the rat portal vein **206**

H. Hörtnagl, M. L. Berger, H. Reither, O. Hornykiewicz: Cholinergic deficit induced by ethylcholine aziridinium (AF64A) in rat hippocampus: Effect on glutamatergic systems **213**

L. Brown, E. J. Cragoe, Jr, K. C. Abel, S. W. Manley, J. R. Bourke: Amiloride analogues induce responses in isolated rat cardiovascular tissues by inhibition of Na^+/Ca^{2+} exchange **220**

J. M. Hall, I. K. M. Morton: Subtypes and excitation-contraction coupling mechanisms for neurokinin receptors in smooth muscle of the guinea-pig *Taenia caeci* **225**

T. Ishibashi, M. Hamaguchi, S. Imai: 2-Nicotinamidoethyl acetate (SG-209) is a potassium channel opener: Structure activity relationship among nicorandil derivatives **235**

K. Schrör, S. Förster, I. Woditsch: On-line measurement of nitric oxide release from organic nitrates in the intact coronary circulation **240**

K. Kinoshita, M. Ikeda, K. Ito: Properties of palytoxin-induced whole cell current in single rat ventricular myocytes **247**

M. J. Durcan, R. G. Lister, P. F. Morgan, M. Linnoila: Interactions of intracerebroventricular pertussis toxin treatment with the ataxic and hypothermic effects of ethanol **252**

Short communication

A. Ricci, A. Rossodivita, F. Amenta: Dopamine DA-2 receptor sites in the rat renal cortex: A light microscope autoradiographic study **259**
